

A Project Report on

Title of your project

Submitted in partial fulfillment of the requirements for the award
of the degree of

Bachelor of Engineering

in

Information Technology

by

Name of the Student1(Student ID)
Name of the Student2(Student ID)
Name of the Student3(Student ID)
Name of the Student4(Student ID)

Under the Guidance of

Name of Guide
Name of Co-Guide

Department of Information Technology
NBA Accredited

A.P. Shah Institute of Technology
G.B.Road,Kasarvadavli, Thane(W), Mumbai-400615
UNIVERSITY OF MUMBAI

Academic Year 2020-2021

Approval Sheet

This Project Report entitled “*Project Title*” Submitted by “*Name of the Student1*”(Student ID), “*Name of the Student2*”(Student ID), “*Name of the Student3*”(Student ID), “*Name of the Student4*”(Student ID) is approved for the partial fulfillment of the requirement for the award of the degree of *Bachelor of Engineering* in *Information Technology* from *University of Mumbai*.

Acknowledgement

We have great pleasure in presenting the report on **Project Title**. We take this opportunity to express our sincere thanks towards our guide **Guide Name** & Co-Guide **Co-Guide Name** Department of IT, APSIT thane for providing the technical guidelines and suggestions regarding line of work. We would like to express our gratitude towards his constant encouragement, support and guidance through the development of project.

We thank **Prof. Kiran B. Deshpande** Head of Department, IT, APSIT for his encouragement during progress meeting and providing guidelines to write this report.

We thank **Prof. Vishal S. Badgujar** BE project co-ordinator, Department of IT, APSIT for being encouraging throughout the course and for guidance.

We also thank the entire staff of APSIT for their invaluable help rendered during the course of this work. We wish to express our deep gratitude towards all our colleagues of APSIT for their encouragement.

Declaration

We declare that this written submission represents our ideas in our own words and where others' ideas or words have been included, We have adequately cited and referenced the original sources. We also declare that We have adhered to all principles of academic honesty and integrity and have not misrepresented or fabricated or falsified any idea/data/fact/source in our submission. We understand that any violation of the above will be cause for disciplinary action by the Institute and can also evoke penal action from the sources which have thus not been properly cited or from whom proper permission has not been taken when needed.

Abstract

abstract in 10 to 15 lines.

Contents

1	Introduction	1
1.1	Section	1
1.1.1	Subsection	1
1.1.2	Use of Bullets	2
1.1.3	Use of Tables	2
2	Literature Review	3
3	Project Design	4
4	Project Implementation	5
5	Testing	6
6	Result	7
7	Conclusions and Future Scope	8
	Bibliography	9
	Appendices	10
	Appendix-A	10
	Publication	12

List of Figures

1.1	Intrusion Detection System	1
-----	--------------------------------------	---

List of Tables

1.1	An Example of a Table	2
6.1	Wormhole Attack Comparison with AODV Protocol	7

List of Abbreviations

IDS:	Intrusion Detection System
WSN:	Wireless Sensor Network
MANET:	Mobile Ad-Hoc Network
AODV:	Ad-Hoc On-demand Distance Vector Routing
DSR:	Dynamic Source Routing Protocol
NS2:	Network Simulator 2
ACK:	Acknowledgement
AGT:	Agent
RTR:	Router

Chapter 1

Introduction

The title of Chapter 1 shall be Introduction. It shall justify and highlight the problem posed, define the topic and explain the aim and scope of the work presented in the report. It may also highlight the significant contributions from the investigation.

1.1 Section

You can also create section and subsection

A chapter can be divided into Sections, Sub-sections and Sub-sub Sections so as to present different concepts separately.

1.1.1 Subsection

Sections and sub-sections can be numbered using decimal points, e.g. 2.2 for the second section in Chapter 2 and 2.3.4 for the fourth Sub-section in third Section of Chapter 2.

Figure 1.1: Intrusion Detection System

- A) Host-based IDS and
- B) Network-based IDS.
- C) Specification based Intrusion Detection.

1.1.2 Use of Bullets

- item 1
- item2
- item3
- item4

1.1.3 Use of Tables

One	Two
Three	Four

Table 1.1: An Example of a Table

Chapter 2

Literature Review

This shall normally form Chapter 2 and shall present a critical appraisal of the previous work published in the literature pertaining to the topic of the investigation. emphasis of the chapter shall depend on the nature of the investigation.

Chapter 3

Project Design

In Chapter 3 which is Project Design Project Groups should have System Architecture, UML Diagrams like Activity, Use Case, Class. Don't just include diagrams. Write brief about why Therotically These diagrams are important in Design & also write in breif what it is representing regarding u r project

Chapter 4

Project Implementation

In Chapter 4 which is Project Implementation Project Groups should add at Max 6 snippets of your code or Screenshots which you feel are major & Technically critical along with brief description.

Chapter 5

Testing

As per outline in Chapter 5 Project Groups should jot down Which testing method out of Standard SW Testing methods is best suits for their Implementation. Write Theory in Breif about that Testing method as one paragraph. In second Para justify why it's best suits your project

Chapter 6

Result

This shall form the penultimate chapter of the report and shall include a thorough evaluation of the investigation carried out and bring out the contributions from the study. The discussion shall logically lead to inferences and conclusions as well as scope for possible further future work.

Parameters	Wormhole Attack	AODV
Total No.of Sent Packets	85068	85068
Total No.of Received Packets	16252	68068
Total No.of Drop Packets	61948	16864
Throughput	98.01	410.24
Delay	0.0244	0.1528
Jitter	23.93	100.16

Table 6.1: Wormhole Attack Comparison with AODV Protocol

Chapter 7

Conclusions and Future Scope

This will be the final chapter of the report. A brief report of the work carried out shall form the first part of the Chapter. Conclusions derived from the logical analysis presented in the Results and Discussions Chapter shall be presented and clearly enumerated, each point stated separately. Scope for future work should be stated lucidly in the last part of the chapter.

Appendices

Detailed information, lengthy derivations, raw experimental observations etc. are to be presented in the separate appendices, which shall be numbered in Roman Capitals (e.g. Appendix I). Since reference can be drawn to published/unpublished literature in the appendices these should precede the Literature Cited section.

Appendix-A: NS2 Download and Installation

1. Download ns-allinone-2.35.tar.gz from <http://sourceforge.net/projects/nsnam/>
2. Place ns-allinone-2.35.tar in your desired directory; like /home/vishal.
3. Go to terminal and do as following commands
sudo apt-get update
sudo apt-get install automake autoconf libxmu-dev build-essential
4. Extract ns-allinone-2.35 and after extracting go to folder ns-allinone-2.35 from Terminal as
\$cd ns-allinone-2.35
\$/install
5. Path Setting
\$ gedit .bashrc

This command will open an existing file in editor. Just put the following path which is given bellow. [Remember that our ns-allinone path is /home/vishal. we will change this path according to our ns-allinone folder's path]

```
export PATH=$PATH:/home/vishal/ns-allinone-2.35/bin:/home/vishal/ns-allinone-2.35/tcl8.5.10/unix/home/vishal/ns-allinone-2.35/tk8.5.10/unix
```

```
export LD_LIBRARY_PATH=$LD_LIBRARY_PATH:/home/vishal/ns-allinone-2.35/otcl-1.14:/home/vishal/ns-allinone-2.35/lib
```

```
export TCL_LIBRARY_PATH=$TCL_LIBRARY_PATH:/home/vishal/ns-allinone-2.35/tcl8.5.10/library
```

After this save and exit.

6. Now type in terminal to check that, is all command we entered in .bashrc is correct or not? And To take the effect immediately

\$source .bashrc

7. Then perform the validation test using this command.

\$./validate

8. Run ns2 using this command

\$ns

We will get % prompt in our terminal. Now ns2 has been installed.

Publication

Paper entitled “**Paper Title**” is presented at “**International Conference/Journal Name**” by “**Author Name**”.

NOTE:

In Project Report Project Group will have to elaborate sections included as per work done after Sem VII. It can't be same Sem VII. Report must have proper description, Elaboration of Digrams included in Design & Implementation. It can't be just Digram on Page. You will have to write there why this has been included, What it is representing. Same is Applicable to snippets of Project implementation you have included in Report. Include your publications in your Report if You have.
